

FIRE SUPPRESSION

DECEMBER 2024

HOMOLOGATION FOR CLASS OF FUEL: CLASS II

FEV HOMOLOGATED EXTINGUISHER SYSTEMS AS LISTED ON FIA TECHNICAL LIST 52

Following on from additional testing, we are pleased to confirm that the FEV homologated extinguisher systems as listed below are now also homologated for class of fuel - CLASS II

HOMOLOGATION NUMBER	PRODUCT NAME	ORIGINAL HOMOLOGATION DATE AND FUEL CLASS. COLOUR OF HOMOLOGATION LABEL	UPDATED HOMOLOGATION DATE TO INCLUDE FUEL CLASS. COLOUR OF HOMOLOGATION LABEL
EX.021.19	N-TEC2950R	MAY 2019 – CLASS I White homologation label	NOVEMBER 2024 – CLASS II Yellow homologation label
EX.020.19	N-TEC3550R	MAY 2019 – CLASS I White homologation label	NOVEMBER 2024 – CLASS II Yellow homologation label
EX.019.19	N-TEC4100R	MAY 2019 – CLASS I White homologation label	NOVEMBER 2024 – CLASS II Yellow homologation label

The FIA have confirmed that the original white homologation label on the fire bottle is still accepted, and it will only require to be updated to the yellow homologation label at the time of the next 2-year re-certification date.

FEV approved service agents have been instructed to complete the homologation label update when they receive any of the above systems for re-certification.

Please contact us as below if you require any further information.

Thank you.
